PROPER DISPOSAL OF THIS PRODUCT (WASTE ELECTRICAL AND ELECTRONIC EQUIPMENT)

(Valid in the European Union and other European countries with waste separation)

This symbol on the product, or the documents accompanying the product, indicates that this appliance may not be treated as household waste. This is to avoid environmental damage or personal injury due to uncontrolled waste disposal. Please dispose of this product separately from other waste and have it recycled to promote sustainable economic activity.

FEATURES

- Simple and elegant height adjustable stand
- Stable and flat steel base plate
- Tilttable tray
- Adjustable holding pins to keep laptops, tablets and other items in place
- Can be used as lectern and home office solution

DESCRIPTION

Live performers and studio musicians are familiar with having to find a place to put their laptop, tablet or central effect unit. But also being able to move your workstation around when working at home can be helpful to ensure a quick and flexible change of scenery. The LTST 02 W laptop stand from Gravity® offers you this possibility. Whether you're a musician, technician, photographer or stay-at-home worker, the universally applicable, flexible and very stable tray means you no longer need to worry about your work equipment.

There are many ways the large, height-adjustable tray panel, which offers enough space to accommodate all common 12" to 17" laptops, can be used. The four adjustable retaining bolts - which can be removed if required - ensure the safe and secure positioning of laptops, tablets or compact mixers on the tray. Numerous ventilation slots enable the proper ventilation of electronics. Extra flexibility is offered by the tray panel which can be adjusted to any angle. This allows the LTST 02 W to be used both vertically and horizontally, for example, to keep your notes visible at all times when giving a talk.

The LTST 02 W is an extremely stylish laptop stand with a sleek look, mainly in part due to its single leg and a flat base made out of solid steel. In contrast to conventional tripods which are rarely used off stage or outside the studio due to their close resemblance to microphone and loudspeaker stands, the LST 02 W also cuts a fine figure at events, conferences or in offices.

The height of the LTST 02 W can be flexibly adjusted between 79 cm and 129 cm, meaning it can also be used while sitting down.

With the LTST 02 W, Gravity® offers you a universal laptop stand that's bound to win you over as a flexible portable tool for setting up mobile performance rigs in a variety of situations.

SPECIFICATIONS

Product number	GLTST02W
Product type	Stands and Tripods Multimedia Equipment
Type	Laptop Stand
Steel	Steel
Tubing material	Steel
