## LIGHTING BEYOND ETERNITY

The Halley H330 is a high-performance lighting fixture requiring a 100-240 V AC power supply and consuming 492W, ensuring energy-efficient operation. It features a powerful 380W white LED that emits 13,095 lumens and 94.499 lux at 5m, providing brilliant illumination. The adjustable beam angle ranges from 3° to 48° with motorized focus for precise lighting control. Its color system includes a linear CMY mixer and a 9-color wheel, offering diverse color effects. The fixture supports DMX and RDM for detailed control and software updates, and measures 415 x 340 x 632 mm with a manageable weight of 20.5 kg, combining durability with ease of use.
