AQUA 200: ILLUMINATE WITH IMPACT

Meet the future of event lighting with the Aqua 200, a fixture that pushes the boundaries of visual brilliance. This cutting-edge light source features a powerful 200W RGBA 4in1 COB LED, delivering an exceptional luminous flux with vibrant reds, greens, and blues that bring your events to life with unmatched clarity and color precision.

With a versatile 60-degree beam angle and precise zoom capabilities, the Aqua 200 allows you to shift from narrow, focused beams to wide, immersive washes effortlessly. This flexibility transforms any venue into a dynamic visual canvas, perfectly tailored for dramatic performances, energetic concerts, or sophisticated corporate gatherings.

Built to endure the demands of both touring and permanent installations, the Aqua 200 combines rugged IP65-rated construction with a state-of-the-art phase change liquid cooling system. This innovative cooling design ensures optimal performance with minimal noise, making it a reliable choice for high-stakes productions.

The fixture's intuitive TFT screen and DMX512 compatibility with 4 or 8 channels streamline complex lighting setups, offering ease of use for both seasoned professionals and newcomers. Whether you're setting the mood for an intimate theater show or energizing a large crowd, the Aqua 200 seamlessly integrates into any lighting arrangement, delivering breathtaking visuals that captivate and inspire.

The Aqua 200 is not just a lighting fixture; it's a creative tool that empowers designers to craft unforgettable visual experiences. Its advanced RDM capabilities allow for remote monitoring and adjustments, giving you full control over every aspect of your light show. The fixture's robust build is complemented by its energy-efficient design, ensuring long-lasting performance without compromising on power. With the Aqua 200, you can create stunning effects with minimal effort, whether you're highlighting the main stage or adding subtle ambiance to a side event. Let your creativity shine with a fixture designed to exceed expectations. Experience the future of lighting with Aqua 200, where every beam tells a story, and every color ignites the imagination.

AQUA 200 WW: ILLUMINATE WITH PRECISION

Discover the future of stage and event lighting with the Aqua 200 WW, a state-of-the-art fixture that redefines versatility and brilliance. Featuring a robust 200W Cool White and Warm White LED setup, this powerhouse delivers a luminous flux of 5500-6500 lumens in Cool White and 5000-5500 lumens in Warm White, ensuring exceptional clarity and warmth for any setting.

The Aqua 200 WW boasts a 60-degree beam angle, allowing for precise control over your light output. Whether you need a narrow, focused beam or a wide, enveloping wash, this fixture adapts effortlessly to your vision, transforming any space into a visually stunning experience.

Built to endure the rigors of both touring and fixed installations, the Aqua 200 WW combines a durable IP65-rated construction with advanced DMX512 compatibility. With options for 3 or 6 DMX channels and RDM functionality, it provides unparalleled flexibility for complex lighting setups. The intuitive TFT screen enhances user control, simplifying operation for both experienced technicians and newcomers.

Enhancing your lighting experience, the Aqua 200 WW is also equipped with a seamless dimming capability, offering smooth transitions from full intensity to subtle, ambient glows. This level of control allows you to craft the perfect atmosphere for any event, from theatrical productions to elegant corporate functions. Additionally, the fixture's IP65 rating guarantees it withstands outdoor conditions, making it an ideal choice for both indoor and outdoor events. With the Aqua 200 WW, you're not just lighting a space; you're creating an environment that captivates and inspires.

The Aqua 200 WW innovative design is complemented by a high-efficiency cooling system that ensures reliable performance with minimal noise. Compact yet powerful, its physical dimensions of 267 x 234 x 215 mm and weight of just 5.1 kg make it a versatile addition to any lighting rig. Illuminate with precision and elevate every event with the Aqua 200 WW, where superior light quality meets unrivaled adaptability.

AQUA 120: REDEFINE YOUR LIGHT SHOW

Unleash the power of dynamic lighting with the Aqua 120, a cutting-edge fixture engineered to transform your events with spectacular color and precision. Equipped with 12x10W RGB-WA+UV 6in1 LED, this powerhouse delivers an impressive luminous flux with vibrant hues: B30, G135, R75, W130, P3, and Y65, creating a kaleidoscope of colors that captivate any audience.

The Aqua 120 features a sharp 25-degree beam angle, allowing for precise and impactful lighting effects. Whether you're crafting tight, focused beams or creating sweeping color washes, this fixture's versatility enhances every performance with stunning visual depth.

Designed for both touring and permanent installations, the Aqua 120 boasts robust IP65-rated protection, ensuring reliable performance in any environment. Its DMX512 compatibility, with options for 6 or 10 channels and RDM functionality, provides flexible control over your lighting setup. The intuitive TFT screen makes navigating and adjusting settings straightforward, whether you're a lighting veteran or just starting out.

With a sleek, compact design measuring 267 x 234 x 215 mm and weighing 5.2 kg, the Aqua 120 is both powerful and portable. Its advanced cooling system ensures efficient operation with minimal noise, making it a dependable choice for any high-profile event.

Take your lighting to the next level with the Aqua 120 dynamic strobe and dimming capabilities, offering precision control over light intensity and effects. The fixture's smooth 16-bit dimming curve allows for seamless transitions between vibrant colors and subtle tones, perfect for setting the right mood at any event. Whether you're highlighting a dramatic moment or energizing a dance floor, the Aqua 120 delivers consistent, high-quality lighting that adapts to your creative vision. Its compact, yet durable design ensures easy transport and installation, making it an essential tool for lighting professionals who demand both performance and flexibility. Elevate your lighting experience with the Aqua 120, where cutting-edge technology meets dazzling creativity.
