WE LIVE BY

# 4 SIMPLE VALUES

1. Listen to what customers want.
2. Work with them to provide it.
3. Keep listening to make sure we've got it right.
4. Listen some more.

Listening to our customers is paramount. It's been that way since day one; we feel it's what makes so many people continue to use and praise our products. From developing a new product to improving an existing range, your feedback is invaluable. Join the conversation today and be part of everything Dirty Rigger by following us on Facebook.

### WHERE DID IT ALL START?

Our parent company, Le Mark Group have supplied tapes and accessories to the arts and entertainment market since 1983. For many years, Le Mark distributed rigging gloves from some of the biggest manufacturers around the world (and loved doing it). However, they felt they could offer something a little different. The team at Le Mark had a mission to create something from scratch and offer a range of rigging gloves and accessories that was built almost entirely from user input. In 2009, Dirty Rigger® was born. Since then (and by little more than word of mouth) Dirty Rigger has grown to supply over 120 distributors in over 50 countries across the globe. We're really quite proud of that!

# PPE TESTING

Protecting the hands that earn you a living and put food on the table is paramount to what we do. As a result, all Dirty Rigger gloves are tested to various international standards for PPE. Here's a quick guide on what the symbols mean and how they help protect you.

## CE MARK

The letters 'CE' appear on many products that are traded on the single market in the European Economic Area (EEA). A CE mark indicates that the product conforms to a range of safety, health and environmental protection requirements.

Not all products must bear the CE marking - only those specific to particular categories or directives, like PPE items. As a result, all Dirty Rigger Gloves are CE marked.

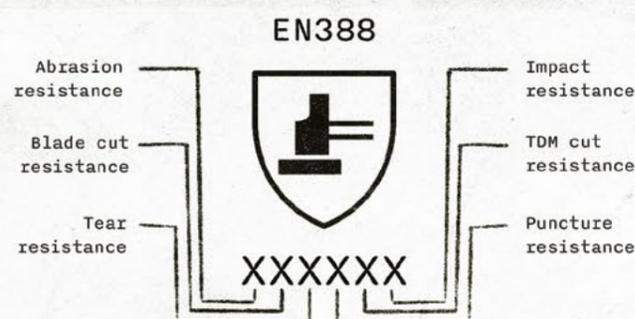

## UKCA

## UKCA MARK

The UKCA (UK Conformity Assessed) marking is a certification mark that indicates conformity with health, safety, and environmental protection standards for products sold within the United Kingdom. It came into effect on January 1, 2021, after the UK left the European Union.

Not all products must bear the UKCA marking - only those specific to particular categories or directives, like PPE items. As a result, all Dirty Rigger Gloves are UKCA marked.

## EN388

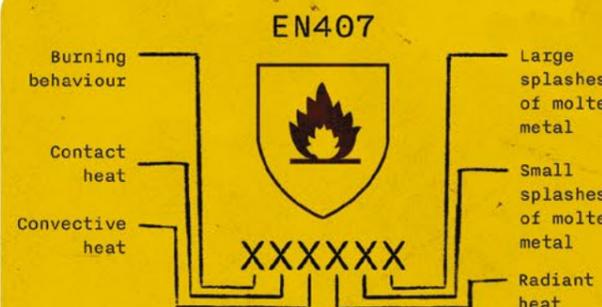

Numerous changes over the years make it easy to get confused with EN388. To make it easier, we've summarised some key areas below...

EN388 (usually followed by a revision date) is a European safety standard for gloves that protect against mechanical risks. Many other countries outside the EU have also adopted the EN388 standard. The standard has been updated several times over the years, but in general, it includes physical tests to assess the resistance of the glove's palm area to abrasion, cutting, tearing and puncture. Most tests use a number to indicate the performance level (1-4, or 1-5, depending on the test); **the higher the number, the greater the protection.** Furthermore, some additional tests for cut resistance use a letter (A, B, C, D, E, F) to indicate the performance level scale. In this case, 'A' offers the least protection, and 'F' provides the greatest protection.

If applicable, gloves may also be tested for impact resistance and will display a 'P' to indicate a pass. Unlike some tests, there is no grading level for this standard. The glove must meet all the primary requirements for impact protection in order to pass.

### What does the 'X' or '0' mean?

If you see an 'X' or an '0' this indicates that a test was not conducted or that no score was achieved. This is likely due to the test not being required for the glove's intended use.

## STANDARD EN 407

EN407 (usually followed by a revision date) is a general standard designed for gloves which are intended to provide protection against thermal hazards. EN407 has been updated several times over the years, but in general, it includes physical tests to assess the thermal resistance of the glove's palm area. Tests include: burning behaviour, contact heat, convective heat, radiant heat, and small and large splashes of molten metal. A number from 1-4 indicates the performance level; **the higher the number, the greater the protection.** It's common for a glove to only show a performance level for one or two EN407 tests. This is likely due to some of the tests not being required for the glove's intended use. Tests not conducted will display an 'X'.

**IMPORTANT:** The information shown is intended as a general guide only. We make all reasonable efforts to ensure its accuracy at time of print, however we recommend referring to the official documentation provided with your PPE.

## INFO BOOK

The info book symbol is usually found wherever a product is claiming EN388, EN407 and many other standards. Info books or, User Information Guides, as they're also known, contain important information about a glove's intended use, limitations, testing results and more. They're important documents and should be read before using the product.

# GLOVES

Designed for riggers by riggers. All Dirty Rigger gloves combine comfort with durability; breathable backs help your hands stay cool, while protection-focused palms prevent injuries from day-to-day cuts, scrapes and abrasions. They're purpose-built for life on tour.

## MEASURE UP!

- Carefully cut out the measuring strip (left).
  - Hold all four fingers together, but only lightly, don't press them together firmly. This makes it easier to get an accurate measurement of the width of your hand.
  - Lightly wrap the measuring strip around one hand, just below the knuckles. Note the measurement and use the size guide on the left to find your approximate size.
- We suggest rounding up to the nearest size if you are in between sizes.

## SIZE GUIDE

Hand Size	Size No.	HAND CIRCUMFERENCE (MM)
XXS	5	127mm
XS	6	152mm
S	7	178mm
M	8	203mm
L	9	229mm
XL	10	245mm
XXL	11	279mm

# GENERAL PURPOSE

## COMFORT FIT™

### General Use

Provide your hands with a comfortable barrier against a moderate manual working lifestyle. The fitted design moves with your hands as you work, minimising the risk of snagging and making it a comfortably light glove to wear.

EN388:2016  
2021X  
CE UK CA

## COMFORT FIT™ 0.5

### Light Use

Almost unnoticeable at only 40g per glove the Comfort Fit™ 0.5 allows you to work comfortably with light and flexible barrier. Feel through the glove with incredible dexterity and virtually unrestricted movement thanks to a durable one-piece synthetic leather palm.

EN388:2016  
2021X  
CE UK CA

The above dexterity and durability charts are intended only as a general comparison across the Dirty Rigger range.

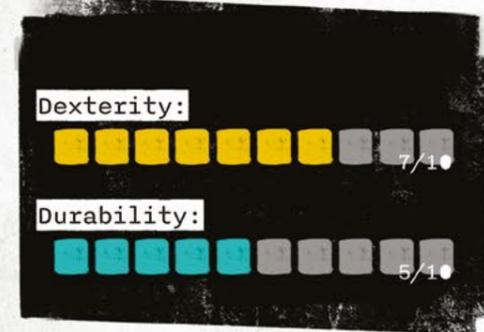

# GENERAL PURPOSE

## SLIM FIT™

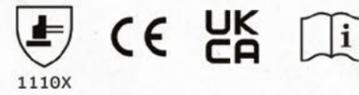

### General Use

If you often find rigger gloves too baggy, then the Slim Fit™ range could be just what you're looking for. Breathable and light, these gloves offer exceptional all-day comfort. A synthetic leather palm combines with a durable second layer in key wear areas for excellent everyday durability.

The above dexterity and durability charts are intended only as a general comparison across the Dirty Rigger range.

EN388:2016

# GENUINE LEATHER

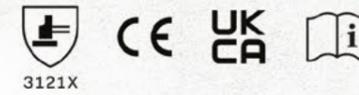

## LEATHER GRIP™

### Heavy Duty

A raw grit workman's glove. Specially selected, double-layered leather creates an exceptional defence for the palm of your hands. A one-piece palm base combined with an articulated second layer to allow optimum freedom of movement as you work.

EN388:2016

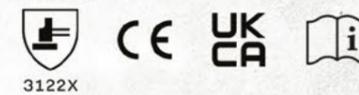

## ROPE-OPS™

### Rope Glove

These gloves have been extensively tried and tested for rope access use across a wide range of industries from theatrical to rescue services. The articulated rope channel provides incredible abrasion resistance and fly control.

EN388:2016

# HEAVY DUTY

## PHOENIX™

### Heat-Resistant

Dirty Rigger's heat and abrasion-resistant glove. The Phoenix Glove resists a maximum temperature of 250°C for up to 15 seconds (EN407: 2004, Contact Heat on palm). Furthermore, the heat-resistant lining is reinforced with ultra-tough, abrasion-resistant leather and secured with double-stitched seams for exceptional durability.

# EXTREME CONDITIONS

## VENTA-COOL™

### Warm Weather

Hand cooling air flow is maximised through low-contact areas on the back of the glove. Additionally, high-ventilation materials encourage air to refresh your hands as you move, drawing heat away from the core.

The above dexterity and durability charts are intended only as a general comparison across the Dirty Rigger range.

## PROTECTOR™ 3.0

### Heavy Duty

Designed from the ground up to provide an exceptional level of all-day comfort while protecting your money makers from a demanding, hands-on lifestyle. The TPR knuckle guard helps protect against minor impact blows to the knuckles, while the world-class aramid fabrics and leathers work to resist abrasions on the palm.

The above dexterity and durability charts are intended only as a general comparison across the Dirty Rigger range.

# GENERAL PURPOSE

# GENUINE LEATHER

## COMFORT FIT™

### General Use

Keep your thumb, middle, and index fingers exposed and ready to tackle intricate tasks. The fitted design moves with your hands as you work, minimising the risk of snagging and making it a comfortably light glove to wear.

EN388:2016 2021X

Writable ID tag

Union Jack embossed knuckle padding

Eyelet hole

Stretched 4 way fabric for flexible movement

Foam padding in key areas

Neoprene knuckle padding

Rounded fingertips to prevent splitting

Double-layered synthetic leather

Double-stitched seams

## LEATHER GRIP™

### Heavy Duty

Open tips give instant access to your thumb, middle and index fingers while specially selected, double-layered leather creates an exceptional defence for the palm of your hands.

EN388:2016 3121X

Writable ID tag

Genuine Leather Framers Gloves

# HEAVY DUTY

# GENERAL PURPOSE

## PROTECTOR™ 3.0

FRAMER

### Heavy Duty

Designed from the ground up to provide an exceptional level of all-day comfort while protecting your money makers from a demanding, hands-on lifestyle. The TPR knuckle guard helps protect against minor impact blows to the knuckles, while the world-class aramid fabrics and leathers work to resist abrasions on the palm. In addition, the framer design keeps your thumb, middle, and index fingers exposed and ready to tackle intricate tasks.

The above dexterity and durability charts are intended only as a general comparison across the Dirty Rigger range.

## COMFORT FIT™

FINGERLESS

### General Use

The Comfort Fit™ Glove range has always been light to wear, but the fingerless design takes it to a new level. The high-cut styling gives you exceptional dexterity when undertaking the most intricate tasks, yet over 90% of your hand remains covered.

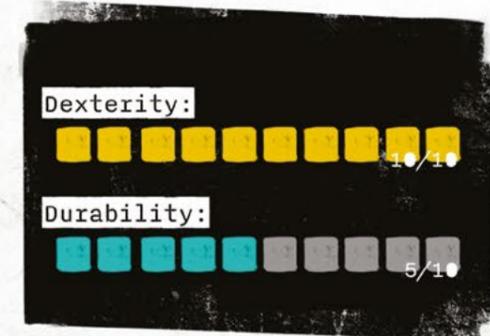

## SLIM FIT™

FINGERLESS

### General Use

One of the lightest and most dexterous gloves in our range. The slim-fit style is ideal if you often find rigger gloves too baggy. In addition, the fingerless design keeps your fingertips exposed and ready for those intricate tasks.

The above dexterity and durability charts are intended only as a general comparison across the Dirty Rigger range.

# TECHNICIAN'S BACKPACK

Designed by technicians, produced by Dirty Rigger. The Dirty Rigger Backpack brings together 18 months of product development, with input from industry specialists around the world. Every inch has been meticulously designed and constructed to give the user the best use of space, organisation and access. It's so tough, spacious and versatile, it might just be the only backpack you'll ever need. If that wasn't enough, the backpack is also made using 80% recycled materials - the equivalent of 30 plastic water bottles.

## DIMENSIONS

**Overall:** 42cm(W) x 50cm(H) x 20cm(D)  
**Outer side pockets:** 15cm(W) x 22cm(H) x 4cm(D)  
**Front pocket:** 27cm(W) x 32cm(H) x 3cm(D)  
**Main storage area:** 32cm(W) x 49cm(H) x 14cm(D)  
**Laptop compartment:** 30cm(W) x 44cm(H) x 3cm(D) - Fits most laptops up to 15.6"

**Unladen weight:** 2.1kg

Tools and backpack content not included. Measurements are approximate.

# THE ULTIMATE TECHNICIAN'S BACKPACK

Rigid, anti-puncture & water-resistant base

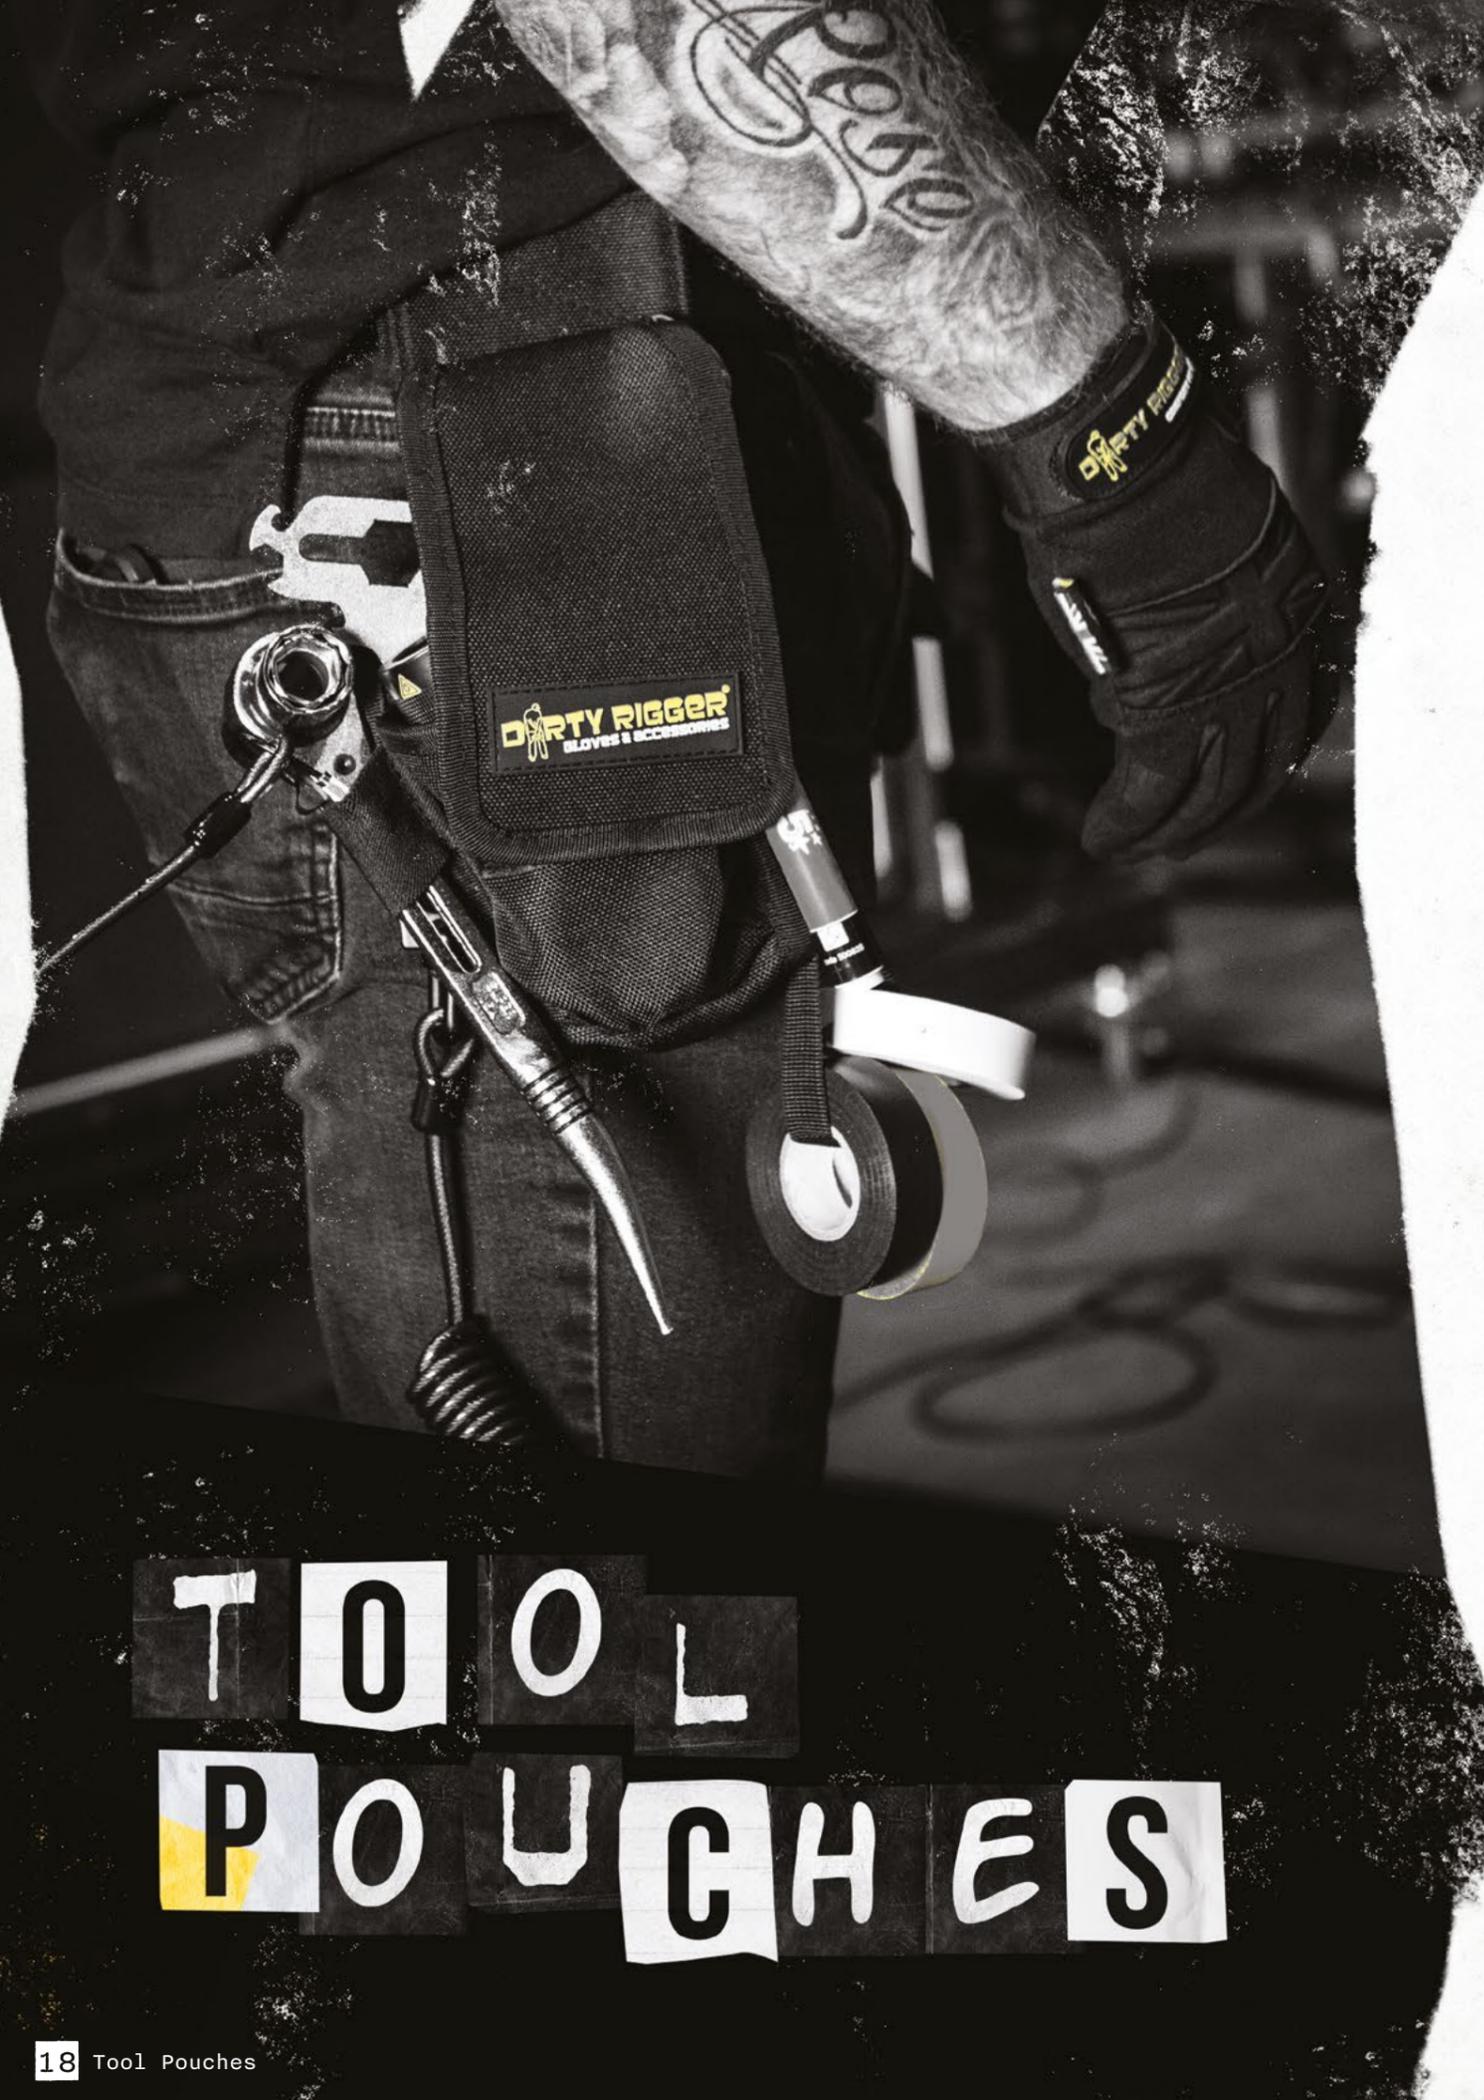

30ltr storage area

Easy-access MOLLE system with 20 slots

Heavy duty 600 denier fabric

## TRUSS PIN BAG

**Pin.Clip.Load.Repeat.**

Free your hands and pockets from weighty truss pins and store them neatly in the Dirty Rigger Truss Pin Bag.

Hold up to 100 pins and clips together in the main 2ltr storage area. Alternatively, organise your pins and clips into separate compartments. As a result, you can grab what you need, when you need it - no more rummaging through pockets!

Crafted from Dirty Rigger's signature 600 & 900 denier fabrics with sturdy metal accessory holders and rivets. The Truss Pin Bag is not just a storage solution; it's a reliable companion for rigging crews and professionals.

## COMPACT UTILITY POUCH

**Compact Versatility**

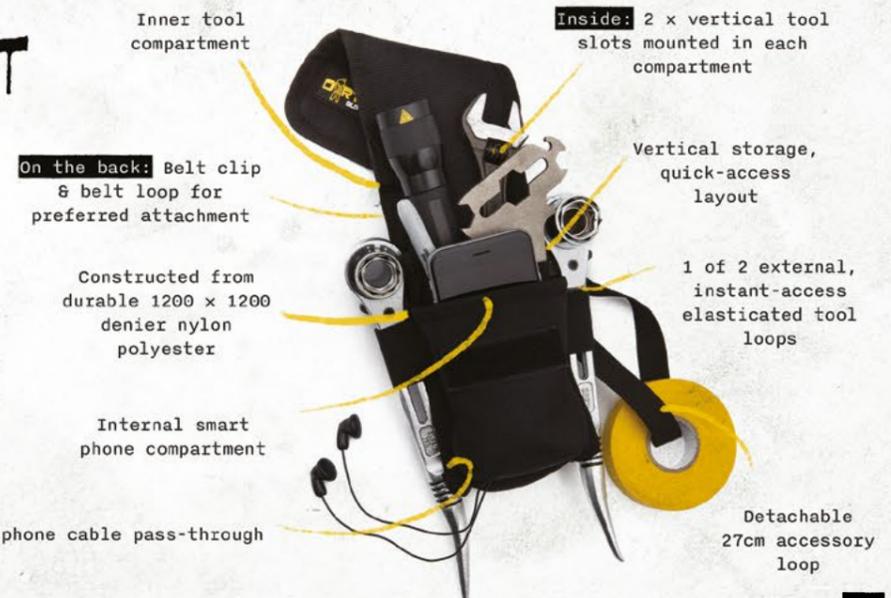

Our unique design provides essential tool storage in an ultra-compact space. Simply attach it to your belt and you'll almost instantly forget it's there. This clenched-fist sized pouch utilises every millimetre of space with heavy duty elastic technology which constantly contracts to make the bag no bigger than it ever needs to be. With 6 screwdriver slots, 3 layered pockets and one expandable centre pocket, you'd be amazed just how much you can get in.

# TOOL POUCHES

## PRO-POCKET™ XT

**More Tools, Minimal Bulk**

The Pro-Pocket™ XT provides a tool storage solution which falls between the Pro-Pocket™ 2.0 and the Tech Pouch™ / Tech Pouch™ 2.0 for storage capacity. While still relatively compact, its innovative internal and external layout provides an impressive level of tool storage with minimal bulk.

# TECH POUCH

## Rugged Ultra Light Storage

Weighing less than 300 grams, the Tech Pouch helps you keep tools organised with a 2.5ltr master pocket and 5 slip-in pockets around the inner walls. Instantly access your most commonly used tools from two open-topped pockets on the bag's outer edges and a built-in pass-through for long handle screwdrivers.

# LED CHEST RIG

## Keep Your Tools Close to Your Chest

Store your essentials on this lightweight, compact Chest Rig with integrated 140 lumen LED. Water and shock resistant, the multi-function light source is easily removed for hand-held use and comes complete with a replaceable battery pack.

# TECH POUCH 2.0

## The Essential Riggers' Tool Pouch

An abrasion and puncture-resistant 4mm rubber base helps prevent pointed tools from piercing through the bottom of the pouch. Help keep your equipment organised with a 2.5ltr master pocket and 5 slip-in pockets positioned around the inner walls.

# TOOL BELT

## Ventilated Tool Belt

Allow your waist to breathe with Dirty Rigger® multi-layered material construction. The padded 3D internally-breathable mesh provides excellent ventilation throughout the belt, minimising uncomfortable under-belt sweat.

# PRO-POCKET™ 2.0

## Instant Access, Vertical Storage

Low profile, light weight and extremely durable. The Pro-Pocket™ 2.0 has a unique layout design which enables it to hold a professional's must-have tools and necessities with minimal bulk.

# PADDED UTILITY BELT

## Breathable, Padded Tool Belt

Spread the load with an extra wide 12.7cm (5") padded belt-back, lined with a breathable mesh and specially selected foam for optimum all-day comfort. Move freely as the belt narrows at the front and sides, minimising bulk and restriction of movement.

# TOOLS & ACCESSORIES

## INTERCHANGEABLE TOOL LANYARD V2.0

Attach. Release. Exchange.

The new and improved Dirty Rigger Interchangeable Tool Lanyard V2 is tougher than ever before. The quick-release clips are now made from electroplated steel, and the tool loop attachment is now compatible with even more tools, including most podger wrenches. As a result, it's our toughest and most versatile lanyard ever.

Durable nylon and polyester stretch cord

Internal bungee helps absorb shock from a dropped tool

2 x quick release loop attachments with barrel locks

Anodised aluminium alloy carabiner clip with captive eye, 360° rotation and self-locking mechanism

Working load limit (WLL) 1kg/2.2lbs

93cm approximate unstretched length (including loop)  
130cm approximate extended length (including loop)

## MULTI-TOOL

### 14 Tools in One Hand

So simple, yet it's indispensable. Cut from 4mm hardened steel, it's one of the toughest multi-tools of its kind on the market. 14 separate tools remain instantly available, with each one designed around some of the most common needs in the professional rigging industry.

## 4-IN-1 PODGER RATCHET

A Solid Steel Combination Podger

4 socket sizes, all constructed from solid steel and coated in an ultra-tough nickel chrome plating. Compatible with most Dirty Rigger® Tool Lanyards, the 4-in-1 Podger is an essential piece of equipment for any rigger.

Metric podger wrench socket sizes - 17, 19, 21 and 24mm

Imperial podger wrench socket sizes - 15/16 inch hex, 3/4 inch hex, 1/2 inch square and 7/8 inch hex

## PODGER HOLSTER

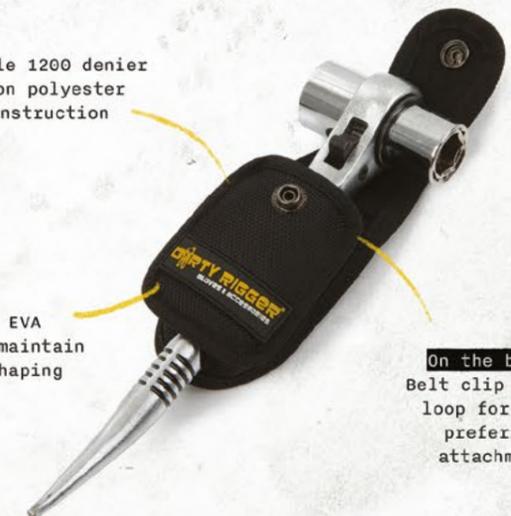

The Handy Little Pocket For Your Podger

Keep your podger right by your side with the Dirty Rigger® Podger Holster. Tidy and discreet, the holster is designed to fit the Dirty Rigger® 4-in-1 Podger and most other podgers of equal size.

Durable 1200 denier nylon polyester construction

Moulded EVA foam helps maintain holster shaping

On the back: Belt clip & belt loop for your preferred attachment

# ADDED ASSISTANCE

## GAFFER HOLDER

An Extra Hand by Your Side

The Gaffer Holder quickly and securely offers an accessible strap for holding tools, clamps, bags and, its original design intention - gaffer tape. The quick release buckle allows for single handed use, while the adjustable strap provides up to a 70cm circumference for larger items.

Gaffer roll not included. General use only. Not intended for working at height or fall arrest.

Lightweight aluminium snap hook

Quick-release buckle

Adjustable strap provides up to a 70cm circumference

## GEAR BAG

A Rigger's Day, All in One Bag

Keep everything you need right by your side in the Dirty Rigger® Gear Bag. 12ltrs of organised space, constructed using heavy duty materials and a water resistant outer shell. Padded walls help cushion everything from tools and equipment to tablet devices and drink flasks. 11 inner tool slots give one-handed access to your on-the-moment essentials while a huge central storage compartment caters for almost anything you need. Carry it all using the adjustable seatbelt-style strap and shoulder pad.

Measurements are approximate.

Grab handle

12ltrs of internal storage

Heavy duty and water resistant

Hook and loop closure flap with added buckle

Padded, adjustable seatbelt-style shoulder strap

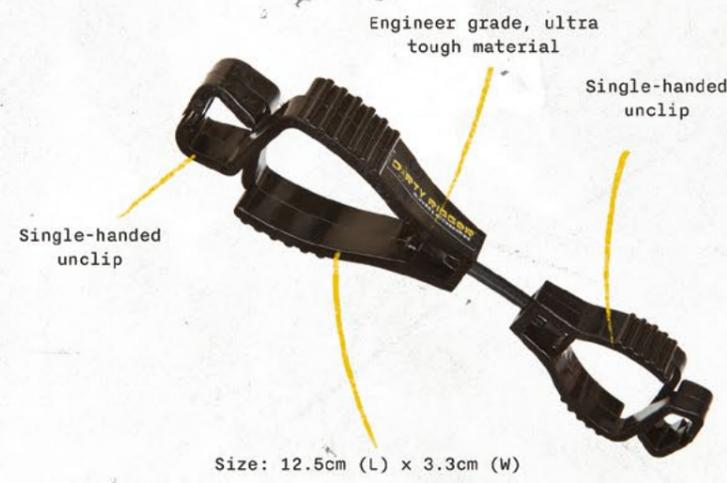

2 external D-rings for extra attachments

## GLOVE CLIP

Clip'em. Keep'em.

Don't leave gloves behind, clip them on right by your side with the Dirty Rigger® Glove Clip.

General use only. Not intended for working at height

Engineer grade, ultra tough material

Single-handed unclip

Single-handed unclip

Size: 12.5cm (L) x 3.3cm (W)

## SHOT BAG (6KG/13.2LBS)

6kg of British Made Muscle

Minimising gravel loss, the Dirty Rigger® Shot Bag retains 6kg of pea gravel in 2 pre-sealed bags. Secured inside 2 hook & loop secured pockets, they can be removed or replaced, if required. The seatbelt-style grab handle and heavy weight material construction throughout the bag provides exceptional durability.

Seatbelt-style heavy duty grab handle

24cm (H) x 33.5cm (W) x 14cm (D)

Rugged material construction throughout

Pre-filled 6kg pea gravel shot bag

2x removable gravel bags, pre-sealed for minimal gravel loss

Double-stitched seams in key wear areas

# CUSTOMISE YOUR DIRTY RIGGER
